

Corrigenda

Robert M. Costrell, "Can Centralized Educational Standards Raise Welfare?" Journal of Public Economics 65 (1997), 271-293.

p. 272, note 3 should read:

"...A particularly clear example comes from the area of teacher certification in the United States. A national teachers' exam is administered by the Educational Testing Service, and each state sets its own cutoff. But the school districts are only provided a pass/fail signal for each applicant. The alternative, of course, would be to provide the school districts with actual test scores so they could set their own cutoffs."

p. 278, equation (3), and lines following:

\hat{y}^{1j} should read \hat{y}^j (3 times)

p. 280, footnote 20, line 3 from end:

$(s^i - y^0)^{1/\beta}$ should read $(\bar{y}^{s^i} - y^0)^{1/\beta}$

p. 289, line 2:

$\bar{y}^i \equiv \bar{y}^i(\bar{y}^i)$ should read $\bar{y}^i \equiv \bar{y}^i(\bar{y}^i)$
